

About RISK LIMITED CORPORATION

★ During the last two decades of volatile market prices and changing economic environments, Risk Limited has successfully advised clients on creating effective risk management programmes and hedge strategies. Within the energy industry, Risk Limited's record of service for companies in a range of sectors has established Risk Limited as the leading independent specialist offering services and products for both energy consumers and producers.

Risk Limited's management consulting practices provide hedge strategy assessment, trading and product development, risk management controls, quantitative analysis and litigation support. Risk Limited also provides independent advisory services for FAS 133 and IAS 39 derivatives instruments reporting and compliance.

Many of the Risk Limited advisers are leading names in their specialties and are well-known as innovators and pioneers in their functional areas, ranging from energy risk management, to trading and hedging, to derivatives accounting. The proven experience of Risk Limited's advisers and the firm's history of solving critical risk management issues has made Risk Limited a preferred source for reliable advice and expertise on risk management.

In recognition of their contributions to the advancement of the risk management profession and their service to clients, Risk Limited has received a number of industry awards, including outstanding achievement of the year for 2006 and inclusion of the Risk Limited chief executive officer into the Hall of Fame by *Energy Risk* magazine. ■
