

# Contractor Management

Ensure that your contractors comply with your health and safety policies and processes by providing them with online access to relevant documentation and guidance. Contractors can also upload all required documentation, including insurances, certificates and other important evidence.

## Key Features

Intuitive interface to easily create and modify records for organisations and contractors

Adaptable system, to create varying levels of assessments for organisations and contractors, to help achieve full compliance

Real-time dashboard showing your current state of play

Email notifications sent out at all stages of the compliance assessment process, ensuring both parties are kept up-to-date

Supporting documentation upload facility, at your request from a contractor, or done on their behalf and linked to a compliance assessment

Robust and thorough approval process for organisations/contractors, to ensure appropriate compliance
