

DSE

All employers must ensure the safety and health of their employees under the Display Screen Equipment (DSE) Regulations 1992. The AssessNET DSE Module provides an intuitive and user-friendly self-assessment tool, complete with online training and an exam. We have recently enhanced our system to reflect the current climate whereby many employees are working from home.

Key Features

Multiple configurable question sets that can run simultaneously

Fully viewable assessment history and tracking

In-depth, easy to understand interactive training on workstation best practices

Concerns documented and highlighted with supporting images and notes

Automatic re-assessment notifications

Easy to read dashboard for reporting and seeing trends
