

# Self-Assessments

Enables you to fully customise any type of employee or contractor self-assessment required as part of your duty of care to keep your employees safe in accordance with HSE law. Examples include Driver Assessments, Customised Covid Questionnaires and Qualification Declarations.

## Key Features

Create Self-Assessment templates for any purpose, and distribute to an unlimited number of Users

Easily manage and prompt your Users to complete assessments

Create and distribute assessments, with intuitive processes requiring minimal support for Users to complete them

Assign and manage actions for assessments, from when the item has been marked as a concern, to the overall report

Use the notification process to ensure Users complete assessments, through to securing the relevant sign-off

View a full audit trail for every assessment and User, to see completion information and any changes made to the assessments
