

COSHH Plus

Outsource your entire CoSHH Management Process to us and we will create your CoSHH Assessments via the AssessNET health and safety management system.

Key Features

Provide quick access to assessments via an easy-to-use Employee portal and QR code functionality.

Assign remedial actions, track progress, and review outcomes in the assessment report.

Save time by only creating the parts of your SDS that are relevant to the COSHH process in question.

Review workplace exposure limit data provided by the HSE to help reduce workplace exposures.

Set review periods or expiry dates for SDS using to manage substances, as well as COSHH Risk Assessments.
