GDPR UK Essentials Training

CPD, IIRSM, Skills for Care

Description

This GDPR Essentials training course is suitable for anyone who handles personal data at work. It focuses on the GDPR in the UK and by the end of the course, users will have an understanding of the 7 principles of the GDPR in the UK and background knowledge of what it aims to machine and why it exists. The GDPR brings together years of laws in the UK into a single piece of legislation. The course can be completed in just 35 minutes and users will receive a certificate upon course completion.

Sections

1. Background

2. The Regulation
